Cranes

do you know  
do you know  
you make me dream too much  
make me dream too much  
and when i think of you  
and when i think of

pulled up?

do you know  
do you know  
you make me scream too much  
just silently  
it's only too much  
far away is such a lonely place to be  
just, just be here with me  
just be here with me
