

The Christmas Angel

Cranes

The Christmas angel walks
The Christmas angel talks
She mends all of the things that fall apart

The Christmas angel dreams
Inside her, she does gleam
And brings together all the broken hearts

And she knows who we are
She sees us as we are
When we're lost, she's not far

Just ahead, near or far

The Christmas angel sees
The things we really need
And then she'll lead one day day
For never-ending peace

And she knows who we are
She sees us as we are
When we're lost, she's not far
In your head, in your heart
In the stars...
