

Saving Grace

Crash Kings

Take my hand
I know it doesn't seem enough for me to feel it
And understand that I will never be the one who
Traps us in
I know it doesn't seem enough for us to keep it
And seize the day
When I will always be the one who

Takes you for a ride and then decides that
It's not right to keep on like this
I will dismiss all the thoughts and feelings
That consume me
From the very start I saw
The automating
Everybody else to be
The savior of the world

You're my saving grace
You're my saving grace
Ooh...

Take my hand
And Know that every second is forever
And don't pretend that I will never be the one who
Loses faith in knowing that we'll always be together
Check my pulse 'cuz I will always be the one who

Takes you for a ride and then decides
That it's not right to keep on like this
I will dismiss all the thoughts and feeling
That consume me
From the very start I saw the
Automating everybody else to be
The savior of the world
You're my saving grace

Stay with me late into this night
Lay with me and I promise to make you feel
Ooh...

You're my saving grace
You're my saving grace
You're my saving grace
And I'm not your loser
