## You Got Me

**Crash Kings** 

Mary! I think you got me You turn around, turn around, turn around and throw it back Sugar! I think you need me You bring me down, bring me down, bring me down again

I think you got me where you want me I think you got me where you want me, woman!

Mary! You drive me crazy You look around, look around, but you're looking for excuses Jenny! She does it for me She's going down, going down, going down tonight

I think you got me where you want me I think you got me where you want me, woman!

I think you got me where you want me I think you got me where you want me, come on!

I'm not a sex-crazed teacher She looks at me to tell me when it's over Cuz I would would never leave you high...and dry

Mary! I think it's over You bring me down, bring me down, bring me down and not again Jenny! I hope you love me I'm going down, going down, going down tonight

I think you got me where you want me I think you got me where you want me, woman!

I think you got me where you want me I think you got me where you want me, come on!

I'm not a sex-crazed teacher She looks at me to tell me when it's over And I would would never leave you high...and dry

I'm not a sex-crazed teacher She looks at me to tell me when it's over Cuz I would would never leave you high...and dry
