

And It's Beautiful

Crash Test Dummies

We turn out water into wine
It's something we do all the time
It doesn't cost a single dime
And it's beautiful... Yes it's beautiful

Our glasses, never just half full
The flowers vivid, colorful
And though we feel
the push and the pull
And it's beautiful...
Yes it's beautiful

And through our hearts are in the right place
And out there is the whole human race
And each one has a mask, and a face
And it's beautiful...

Enough about the look in your eyes
Enough about the sun and the sky
It will always be just you and I
And it's beautiful...
Yes it's beautiful
