

Angel of My Heart

Crash The System

We fell in love
When we were young
There's no one else for me
You're the only one

You are my sacred
Holy grail
You make me smile
Just about any day

I'm glad you did appear
I faced my fears
And showed you all my love
Serenity inside of me
It feels so right

You are the angel of my heart
You're the one I dream about
Fairytale come true

I love your
Deep blue angel eyes
You melt my heart
That once was cold as ice

Can you believe that we
Finally found the key
Now what's in store?
My heart's an open door
