

Fight Fire with Fire

Crash The System

Fight fire with fire
Fight fire with fire

You were addicted in your teens
But was it all for real or just a
Scary endless dream

You stood tall, living the good life
Nothing could go wrong
But you're sinking
Deeper and deeper in lady caine
Cannot fight temptation

Fight fire with fire (fire)
You're burning again
Fight fire with fire (fire)
You're close to the end

You got addicted to her touch
It almost was too much
You slowly fade away

Fire, fire
Can't fight temptation anymore
Your life will fade away

Fire, fire
Can't fight temptation anymore
Your life will fade away
