

Higher and Higher

Crash The System

You and me, will reach our goals
In time you'll see
Memories, and promises to keep

Your dreams are
Well within your reach
Believe me

Higher and higher we go
There's nothing we can't do
Dreams live on forever
Higher and higher we go
'Cause nothing will stop us now
My love, it's now or never

Do believe
That good things come
To you and me
Fantasies
They fade away so fast

When the lights go down
And smoke has cleared away
I know we'll make this work
No matter what they say

No more endless nights
We're gonna reach the sky
Come on, let's do it tonight
