

Love Is in Your Eyes

Crash The System

There's a fire deep inside of me
That I can't let go
I wanna tell you how I feel tonight
I believe our love is so strong

With your tender touch
And your arms around me
Baby, we can't go wrong

Love is in your eyes
Tell me what you feel inside
Right here and now, baby
If another day goes by
Before I know the answer
I break down, I break down and cry

Please tell me what you feel
I know our love is real
Just open up your tender heart
Let's make a brand new start

So, baby we can't go wrong

I just can't let go
Cause I know that you are the one
Our love is too strong to let go, girl

Love is in your eyes, baby can't you tell me now
