

# Without Chances

## Crash The System

We're fighting  
For a dying cause  
I believe we're indestructible  
But our fate will get burned

Heaven knows  
We will find a guided light  
Somewhere in the night

When we start to run  
From a loaded gun  
Angels watching upon me  
But when we kneel down and pray  
We've lost hope for today  
A life without chances  
But fire in their eyes

I'm all alone  
Not far from home  
I'm going insane  
I'm losing my soul  
Like we lost hope and fate

We're hiding  
In the shadows  
But we belong in the light

Which way to turn  
Heaven knows to  
Show the light  
We kneel down and pray  
Lose hope for today  
Yeah, yeah

When we start to run  
From a loaded gun  
Angels watching upon me  
But when we kneel down and pray  
We've lost hope for today  
A life without chances

Which way to turn  
Heaven knows to  
Show the light  
We kneel down and pray  
Lose hope for today  
Yeah, yeah
