

Chemical

Crashdiet

Don't you know
it runs deep down in my bones
And I want it now
I need it now

Can't you see
this deep route misery
that you inflict
It makes me sick

Feel good chemical
Feel good chemical

I gotta get this off my chest
how could you say I was obsessed
cause I can't conceal
a love thats real?
so I broke your golden rules
your regulations too

But I can't rewind
time is so unkind.

All I need is another hit
yeah one last fix to keep the blues at bay
All I need is another kick
just one last kiss of death then I'll be on my way
All I need is another hit
yeah one last fix to keep the blues at bay
All I need is another kick
just one last fix of that I feel good chemical
