

Down with the dust

Crashdiet

Let me tell you 'bout a story
guess you've heard it all before
set in every beating heart and
in a twisted minds decor

from the screaming in my ears
down to the shivers through my spine
feel the burning of illusion
with no other place to hide

I need you I feel you
unbind me tonight
don't leave me deceive me
just tell me it's right

down with the dust

another round of paranoia
covered up in sweetend shame
I tried the darker and the brighter
but who cares it's all the same

running low on high emotion
staring widely through the haze
if you see me down the alley
listen up n hear me say

I need you I feel you
unbind me tonight
don't leave me deceive me
just tell me it's right

down with the dust
