

# Fear Control

Crashdiet

I don't believe,  
Everything i hear,  
So many fools who live in fear,  
See the eyes, city lights watching every move you make, every move yo  
u make,  
Don't be afraid, they will only preach the end is near,  
To keep you down, so,

Take no more, unlock the door,  
Emerge the streets, with every last beat,  
We rise to watch them fall,  
Take no more,  
Fear control,  
With every last breath, fight to the death,  
Take no more,  
Fear control,

Inferior media spreading out anxiety,  
Every line terrifies to restrain society,  
Authorities government tracing every call we make,  
Don't be afraid, they will only preach the end is near,  
To keep you down,

Take no more,  
Fear control,  
Dare to run and hide,  
Doing time in your home cell back tonight,  
Take no more,  
Fear control,  
With every last breath, fight to the death,  
Take no more,  
Fear control,

Take no more,  
Fear control,  
With every last breath, fight to the death,

Take no more,  
Fear control,  
Don't dare to run and hide,  
Doing time in your home cell back tonight,  
Take no more,  
Fear control,  
With every last breath, fight to the death,  
Take no more,  
Fear control
