

Take It to the Bridge

Crazy Town

Tripple X bottle, role models from hell
Livin' our dreams we like to scream and yell
White boys, B-Boys raised in the gutter
I said when I'd grow up I'd be a bad motherfucker
Nothings gonna stop me now, I'm breaking the rules
I'm gonna do it if it's not allowed
Thought I wouldn't when I would, would when I wouldn't
I did it for the reason everybody said I couldn't
I'm putting my best foot down like what now
Lets take it to the bridge and jump the fuck down
Fuck it like a clown jump off a building in a bucket
The worst is yet to come, here it comes so bum rush it

Would you jump off a bridge if I told you to
Would you change the way you live if I told you to
Would you jump off a bridge if I told you to
Well take it to the bridge and jump the fuck off (2x)

Are you ready to jump? Are you ready to leap?
Well the head rush is heavy but for many too deep
??
That were speeding up the world to keep the timing on beat
It keeps reminding everybody who's a pyrimid freak
The pyrimid eye, the figure inside
The leader that you follow the day that you die
We always bring it live which makes it easy to choose
Ain't now greiving or consoling or singing the blues
So when the levee breaks just remember the drums
And when the levee breaks don't forget how to run
Remember what I've done and everything I say
I'm living proof that you can jump and live to try it again

Would you jump off a bridge if I told you to
Would you change the way you live if I told you to
Would you jump off a bridge if I told you to
Well take it to the bridge and jump the fuck off (2x)

I'm torn like Korn playing follow the leader
In a baggy pair of dickies and a dirty wife beater
Should the rate a CD like a movie in a theater
Should they blame it on me? I say we blame it on you
Or blame it on the world there's no excuse for the things we do
Life's a maze I'll be amazed if I find my way through
One, two, tell me whatchya gonna
You gonna jump off the bridge like I told ya to
That's right, bum rush the stage
Whatchya made of, how much more can you take
Half of my life's been one big mistake
But no ones gonna take my place
One, two, tell me whatchya gonna do
Your gonna jump off the bridge like I told you to
That's right, bum rush the stage
What you made of? how much can you take

Would you jump off a bridge if I told you to
Would you change the way you live if I told you to
Would you jump off a bridge if I told you to

Well take it to the bridge and jump the fuck off (2x)

Monkey see and monkey do

Monkey see and monkey do

Monkey see and monkey do

Don't try to be like me you gotta be like you

If you can hear this your catchin' the contact

If you can hear this your bumpin' the sound

If your in the earshot your catchin' the contact

If you can hear this your bumpin' the sound

Jump off a bridge if I told you to

Jump off a bridge if I told you to

Take it to the bridge and jump...
