

# Toxic

## Crazy Town

Catch a fire, Fire it up  
Corrupt stirring it up

It's burning hot, drifting  
Hitting every slot  
With a drop kick ,

It's toxic  
Trouble, like your girl in a mosh pit  
I've lost it  
And that the only way that we rock shit  
Banging heads and ripping threads  
If i wasn't rocking shows  
I'd be better off dead

With a one two  
One word can destroy your whole crew  
And that's toxic

[CHORUS]  
Toxic, loud and obnoxious  
Crazy Town's toxic  
With that, rock your block Shit  
Toxic, popping more lip  
We love to talk shit  
Rocking you block with that  
straight out the block shit  
Toxic

A budda, blastic  
Blacklisted. twisted of faith  
My vocal's fatal  
As naughty v block concoctions  
Rock you cradel  
I thought I wait 'til The timeing was right  
To inginte  
Cause people like me  
we only come out at night  
I rock the main line  
And party with fine bitches  
Which is a dirty job  
But somebody's got to do it

So, who the crew with?  
More has than vivid  
Lyrics explicit  
So fuck the crities  
We leave them hanging  
like INXS.

[CHORUS]  
Toxic thresholds of  
Colomibian gold  
You can't roll how we roll  
We possess you soul  
And push the panic

Is it godly or satanic?  
Toxic or organic?  
Manic minds refind or frantic  
Just the way we planned it

See. we be stomping around The planet  
And we stand alone  
We infiltrate your chromosomes  
No clone  
Our DNA has got a strain  
Of it's own And it's Toxic

[CHORUS]
