

# Aim For The Head

## Creature Feature

Can I pose a question?  
How do you kill what is dead?  
I just shoot from the hip  
And I aim for the head

He used to be your friend  
That was another life  
With a single bullet  
We're gonna blow his mind

With a loaded gun  
And a steady hand  
We just might live through this (Aim for the head)  
If you kill the brain  
Then you kill the ghoul  
And its motor functions (Aim for the head)

Nail up all the windows  
They're gonna settle the score  
Make sure no chamber is bare  
They're right outside the door

This is a test of your strength  
And your will to survive  
If you give up now  
They're gonna eat you alive

With a loaded gun  
And a steady hand  
We just might live through this (Aim for the head)  
If you kill the brain  
Then you kill the ghoul  
And his motor functions (Aim for the head)

Listen to me  
Listen to me  
Listen to me, save yourself

There is no more  
There is no more  
There is no more room in hell

I will help you  
I will help you  
I will help you understand

Come with me now  
Come with me now  
Come with me now, take my hand

We can make it  
We can make it  
We can make it through this

With a loaded gun  
And a steady hand  
We just might live through this (Aim for the head)

If you kill the brain  
Then you kill the ghoul  
And his motor functions (Aim for the head)

Is the end of the world  
Or just the start of the fight  
You better heed my warning  
And watch out for their bite

They have a taste for your flesh  
And for your blood they will crave  
They're coming for us now  
From beyond the grave
