

Bad Blood

Creature Feature

I've got bad blood
I've done bad things
How can I control myself
If I enjoy these nasty habits

I can hear the voices stirring
All the awful things they're planning

I don't play nice
I don't give in
Was it nature? Was it nurture?
Maybe I was just born evil.

It's no use I can't control it
Maybe it's a sign not to quit

I can guarantee that we'll do evil things
The only way that you can stop me now
is if you put me in the ground
Somewhere I'll never be found

I am most disturbed
I deserve to be interred
Don't you dare turn your back on me
I'll attack without a warning sign
Terror lurks in the night

I've got nine lives
I've done grim acts
No emotion
I've been guilty
No defenses

I can hear the voices stirring
All the awful things they're planning

I don't feel pain
I don't back down
My thoughts are filled with cruel intentions
Maybe my conscience is possessed

It's no use I can't control it
Maybe it's a sign not to quit

I can guarantee that we'll do evil things
The only way that you can stop me now
is if you put me in the ground
Somewhere I'll never be found

I am most disturbed
I deserve to be interred
Don't you dare turn your back on me
I'll attack without a warning sound
Terror lurks in the night

I am not one for this world
And I long for the day that my life snuffs out

With all these sinister plots
And my ghoulish transgressions

Cut me down
In a hail of bullets
Remove my head to make sure I don't get up
To be safe just burn my body
Before they consecrate me

I can guarantee that we'll do evil things
The only way that you can stop me now
is if you put me in the ground
Somewhere I'll never be found

I am most disturbed
and deserve to be interred
Don't you dare turn your back on me
I'll attack without a warning sound
Terror lurks in the night
