

## Signs

## Creed

This is not about age  
Time served on the earth doesn't mean you grow in the mind  
This is not about God  
Spiritual insinuations seem to shock our nation

Come with me I'm fading underneath the lights  
Come with me  
Come with me  
Come with me now

This is not about race  
It's a decision to stop the division in your life  
This is not about sex  
We all know sex sells and the whole world is buying

Come with me I'm fading underneath the lights  
Come with me  
Come with me  
Come with me now

Can't you see the signs?  
See the signs now

Can't you see them?  
See the signs  
You see them  
All the signs we see them  
Can't you see them?
