

Call It Pretending

Creedence Clearwater Revival

What would you have me do?
Just turn and walk out on you,
and leave you standing there pretending I don't care?
When you know as well as I, that would be nowhere

Shouldn't I be with you?
Shouldn't I be with you?

What would you have me say,
after I walk away?
Would it be the end or just a second wind,
for the good old song that we used to call pretending?

Shouldn't I be with you?
Shouldn't I be with you?

It's not the first time that you had me turn away
And I know it won't be the last time
But you've got to say it, you've got to

Should we make a brand new start,
or are you gonna break my heart
and leave me standing there pretending I don't care?
When you know as well as I, that would be nowhere

Shouldn't I be with you?
Shouldn't I be with you?

It's not the first time that you had me turn away
And I know it won't be the last time
But you've got to say it, you've got to

Should we make a brand new start,
or are you gonna break my heart?
Will it be the end or just a second wind
for the good old song that we used to call pretending?

Shouldn't I be with you?
Shouldn't I be with you?
Shouldn't I be with you?
Shouldn't I be with you?
