

Push It

Creeper

I'm going insane, from the voices in my brain
They're stabbing with their needles, screaming from the pain
My madness is rising. I feel the hate will grow
Releasing the beast to slaughter, all their evil souls
No! I can't take this no more
Im turning into this thing
That will drive you insane
Why don't you push it and push it and push it, Lord help me! (3
x)
All the way home!
I'm buried in with demons
They're telling me I was next
My body's bathed in blood
From the ones that took it all
My nightmare's now here. My battle's begun
Just push it
Ah, you better fucking push it
