I'm going insane, from the voices in my brain They're stabbing with their needles, screaming from the pain My madness is rising. I feel the hate will grow Releasing the beast to slaughter, all their evil souls No! I can't take this no more Im turning into this thing That will drive you insane Why don't you push it and push it and push it, Lord help me! (3 X) All the way home! I'm buried in with demons They're telling me I was next My body's bathed in blood From the ones that took it all My nightmare's now here. My battle's begun Just push it Ah, you better fucking push it
