

Rollin' In The Rain

Creper

I got the brim of my hat
Pulled down to the top of my eyes
I'm rollin' underneath the sheath
Of the rainy, cloudy, greyish skies
All the dirt and the filth
On the street that? S on the uprise
Slowly washes down the drain
When I'm rollin' in the rain

Down the avenue lookin' through the rear view
I see no cops, my car looks dope from the raindrops
Now that it's wetter
My motor sounds like it's running just a little bit better
Passed a finie on the bus stop
I'm gonna turn around and go and get her
The ex was on my mind, this is gonna help me to forget her
Inside the ride she ditched the wet sweater
I swerved in the next lane
I was rollin' in the rain

I hit a corner and I get sideways
I straighten it out as my passenger prays
I love to blaze J? S on these rainy days
Wipers on high phase
I hydroplane when I? M rollin' in the rain
That was kinda close so now I better drive slow
You gotta admit I handled that turn like a pro
Yo, I had to promise I wouldn? T get crazy no more
A rainbow over my terrain
When I'm rollin' in the rain

Rain, rain, rain, never, never go away
You can bring the sun back some other day
Rain, rain, rain, never, never go away
Until we have some peace on the streets of L. A.

I love rollin', rollin' in the rain
It washes away the pain that has built up on my brain
I love rollin', rollin' in the rain
I forget about the things that drive me insane
I love rollin', rollin' in the rain

It's the type of feeling that you just cannot explain
I love rollin', rollin' in the rain
In the rain is where I roll when I roll in the rain

I see a black and white is sittin' to my right
He stared at me non-stop throughout the whole red light
Will he pull me over, I think he just might
But when he drove off
He just waved and said "have a good night"
I popped my tape back in
Put the volume back to ten
I went back to the tacos I was having with my girlfriend
We had sexual healing beneath the leak in my ceilin'
The feeling is insane, when your rollin' in the rain

Rain, rain, rain, never, never go away
You can bring the sun back some other day
Rain, rain, rain, never, never go away
Until we have some peace on the streets of L. A.

I love rollin', rollin' in the rain
It washes away the pain that has built up on my brain
I love rollin', rollin' in the rain
I forget about the things that drive me insane
I love rollin', rollin' in the rain
It's the type of feeling that you just cannot explain
I love rollin', rollin' in the rain
In the rain is where I roll when I roll in the rain

Rain, rain, rain, never, never go away
You can bring the sun back some other day
Rain, rain, rain, never, never go away
Until we have some peace on the streets of L. A.

I love rollin', rollin' in the rain
I love rollin', rollin' in the rain
I love rollin', rollin' in the rain
I love rollin', rollin' in the rain
