

# Eternal

## Crematory

Waited so long for this day  
Eternity putting innocence to the test  
No one knows the real reason - No one can stop him  
His power - His power growing every day

The game is lost, eternal hate united with the eternal day  
The game is lost, eternal love united with the eternal hope

Deeply within converted to lone lines  
Known as an outsider, recognized as a lone wolf  
Lost by the test of humanity  
He wanders - He wanders across the promise land

The game is lost, eternal hate united with the eternal day  
The game is lost, eternal love united with the eternal hope

The last breath - The last moment  
The last game - The last move  
The game is lost - The game is lost - is lost  
The time is lost - The time is lost - is lost

The power of conviction created from ones self  
Surrounded by silence, encircled by darkness

Armed for the right to survive  
Who always - Who always wins can't bear to lose

The game is lost, eternal hate united with the eternal day  
The game is lost, eternal love united with the eternal hope  
The game is lost, eternal hate united with the eternal day  
The game is lost, eternal love united with the eternal hope
