The Game

Crematory

```
Your life defined by many lies
You dwell in your own words
Distant from all that's real
Gaze into the mirror
And behold the Face of a player
```

```
A game of life - the game of life
A game with your life - the game
A game of life - the game of life
A game with your life - the game of life
```

In some situations once so common And then disappointed stabbed those That once aided you in the back Seeking truth in a glass

```
A game of life - the game of life
A game with your life - the game
A game of life - the game of life
A game with your life - the game of life
```

```
Aggressive and disappointed
You roam through life
Tossing away
Your whole future for a
Small illusion in your head
```

```
A game of life - the game of life
A game with your life - the game
A game of life - the game of life
A game with your life - the game of life
```
