

# Transmigration

Crematory

The end of your time has come  
A journey into your own self  
I'll show you what good and evil feel  
Death is a form of love  
Life is an unknown journey into subconsciousness

Of your soul where dreams became reality  
Follow me into the light of the forgotten  
Death is an entrance to another life  
Neither time nor space can stop this circle

Emotion and feelings  
The unreality of fear of the unknown  
Transmigration - Transmigration

I am the door ahead of the long journey  
I am the journey into the bright light  
I am the light of your redemption  
I am the redemption from the nothingness  
I am the nothingness before the end  
The end of your time has come

The end of your time has come  
A journey into your own self  
I'll show you what good and evil feel  
Death is a form of love  
Life is an unknown journey into subconsciousness

Of your soul where dreams became reality  
Follow me into the light of the forgotten  
Death is an entrance to another life  
Neither time nor space can stop this circle

Emotion and feelings  
The unreality of fear of the unknown  
Transmigration - Transmigration

Your end of your time has come  
A journey into your own self  
I'll show you what good and evil feel  
Death is a form of love  
Life is an unknown journey into subconsciousness
