Crime In Stereo

Veering off your greedy heart  
I can't understand your pain anymore

We can get a lawyer and, move on  
And we can get a lawyer if, you want

I can understand your pain, but I won't  
If we can't get along we can't be in love

(anywhere/everywhere, end of the world  
in the middle of nowhere, nothing/something happens)

If we can't get along we can't...  
if we can't get along we can't be in love

{Your} black Irish smile begins  
Up the soft snow of your skin  
As the memory sinks in...

I'd give anything (3x)  
To start again

(anywhere/everywhere end of the world  
in the middle of nowhere nothing/something happens)

{Your} black Irish smile begins  
Up the soft snow of your skin  
As the memory sinks in...

I can't stop remembering
