

# I Knew This Nurse

Crime

She was smart, and she was dumb  
She was clean, and she was fun  
She could stick me any time  
She was a nurse and she was mine

I knew this nurse  
I knew this nurse

Go to work and I'd stay in bed  
I get up and get out of my head  
Play your stereo really loud  
Look outside at the daytime crowd

I knew this nurse  
I knew this nurse  
Yeah yeah yeah

Then I'd call her on the telephone  
Tell ya baby I'll be right home  
Bring ya home somethin' to do  
Something for your summertime blues

I knew this nurse  
I knew this nurse  
Yeah yeah yeah

She was smart, and she was dumb  
She was clean, and she was fun  
She could stick me any time  
She was a nurse and she was mine

I knew this nurse  
I knew this nurse
