

Can You Feel That

Crimpshrine

Can you feel that?
Sitting in my room, I've got nothing to do
So I waste my time, and I fuck up my mind
She said "Can you feel that? It's a baby."
She said "Little baby girl, and it's your child."
It's better than t.v., and it's almost as free
Just one very small word
One hit and all my problems are cured
She said "It's a baby"
"Can you feel that?"
