

Celestial Interference

Crionics

Eternal deception inevitably
Closing you in semicircle
Responsibility evasion fades away
Amoral experiences aim operation

In whichever direction
What amoral is to me?

Insertion into septic environment
Decontaminates consciousness of mind
Paradoxically

Prodigal son closest friend of mine
Prominent even crippled
What was I before celestial interference?

Abomination used to appear before
While now it is gone
Ultimate pondering causes
More new besetting questions

Vapour enshrouded events
From the past
At altar of the future
It is bleeding

Responsibility evasion fades away
Amoral experiences aim operation
In whichever direction
What amoral is to me

Insertion into septic environment
Decontaminates consciousness of mind
Paradoxically

Abomination used to appear before
While now it is gone
Ultimate pondering causes
More new besetting questions

Prodigal son closest friend of mine
Prominent even crippled
What was I before celestial interference?
