

# The Last Monkey

Crisix

Going back in evolution  
Return to a primitive state  
What is the meaning of life?  
If I am alone in the world

I am the last monkey (Monkey...)  
Hallowed be the monkey! (Monkey...)  
I am the last monkey (Monkey...)  
One against the world...

All life is going to be extinct  
But one being resists  
In a time of war  
Deprivation of souls

Afraid, alone in the dark  
I am going insane  
No more food, no more light  
Condemned to die!

A time of blindness!  
A sign of evil!

Running for my life, an endless run, I hear the screams of pain  
They kill without mercy, I can't understand!

Fight against the global madness  
Lethal weapons crush the world  
Families are crying in sadness  
I can't believe, it's another war

Army of a bastard nation  
Follow the orders of a pig  
Wretched human destination  
Rivers of blood, can't you see?

Total destruction of the human race made by the hands of logical fate  
Only I can see, only I can hear, no one will stay alive, No!  
I'm alone, I'm afraid, I'm the only one, insane!  
Seas of blood, the world is over, endless suffering, mind disorder!
