Criss Angel

Post apocalyptic magician
With the new record?
Welcome back Harry Houdini with new bag tricks
I'll show ya, show ya, show ya how I do that trick
The one that makes you scream and kick
Obsessin and messin' with your fantasy
I'll play with your perception of reality
Show me, Show me, Show me what you wanna see
Let me introduce you to the human in me.
I spent my life listening to everyone's help
I know there people that try to wear me out
I'm psyching you out or I'll bail you out
I never really get what these things are about.
Auto mechanical, I'm still magical,
Delusion of illusion, like a winston owl
Overly curious, 45 furious
Goddamn try me out see if I'm serious*
You never Tell me or ask me
I'm sick of all you people who harass me
Don't even tell me don't ask me
I'm sick of all you people who harass me
Never tell me or ask me
I'm sick of all you people who harass me
Don't even tell me don't ask me
I'm sick of all you people who harass me
Mean, mean spirit
Try to use my powers while suffering
Kayala's beauty is just out of reach?
Until these enemies of Amystika I can defeat?
Auto mechanical, I'm still magical,
Delusion or illusion, like a winston owl
Overly curious, 45 furious
Goddamn try me out see if I'm serious
You never tell me or ask me
I'm sick of all you people who harass me
Don't even tell me don't ask me
I'm sick of all you people who harass me
Never even tell me or ask me
I'm sick of all you people who harass me
Don't even tell me don't ask me
I'm sick of all you people who harass me
So step into the nexus
Meet the loyal in me [laugh]
Insane creations, world of illusion, Inhuman,
Metamorphosis, tre-tremor
[Whispered]yah, yah, yah, Firestorm
[Whispered]Rev it up, revelation
[Whispered] boom boom, ha ha
