## Forever

**Criss Angel** 

Rage Saturates my inside As my dreams turn to dust Trust doesn't live there ... Creeps in my head Oh, I wish you were dead And never, and never hurt me Victimize Patronize (Patronize) Words can't be spoken to erase She'd my skin To begin Forever Forever It's too late for me Feel my pain Seeping out It's too late It's too late Feel my pain Seeping out Feel my shame Ceeping out It's too late It's too late (Forever) It's too late (For me, for me) It's too late Forever It's too late It's too late Forever Forever Forever It's to late Forever Forever Forever
