Don't Tread On Me

Lie to all your friends The trouble never ends You're gonna take a fall And I don't care at all

Stabbed me in the back Someone I trusted Let's get things straight Don't tread on me

I thought things were cool But I guess I was a fool And now I know All about you

Stabbed me in the back Someone I trusted Let's get things straight Don't tread on me

You crossed me once, Don't try it again You didn't learn, I'll show you again What goes around, Comes back around Revenge, revenge is sweet

Don't tread on me! (4x)
