Yeah, living like a greedy vulture

Cut me deep enough and find some afros... culture

All about peace when I approach her

If the elephant in the room is beef, consider me the poacher

Yeah this is... talking to revolutionaries, is swahili or hulu sasa

Always keep a bad chick in me casa

Shouts out to my home girl...

Nah, I'm not the dude you assume

I've been here even before leaving my mother's room

I've also, been her for many moves

That's why my body's missing from my egyptian tomb

Listen, what if... never buried her husband

What if there was never a... for

Half of... we got a black president

They say racism is dead but where's the african sunbell

Ask a... what do faith represent

And since god made me black as...

Rappers can unite, every race under the sun

Hand wrapped around the mike, homie I'm the one

Dropped out on mystery schools...

They gonna make you...

Maybe I'm... cause he is I and I am your highness

Bow down in the presence of the pharaoh

Strike a peasant in the heart with the golden bow and arrow

44 in the apparel, I will blow the barrel

Shake the dice on the floor oh I'm taking your dinero

I used to eat pinna butter out the jar

Now it's pinna butter guts when my door's...

On the road at night rallying through the yellow lights

Rallying through the stop signs

Competition on they back like...

And boy's missing, reminiscing the old times

Hate... now your hoe's not

How did you managed to make them look like...

We ain't consider... sandwiches

Bottles by the forklift and chronic by the cases

Cause I laid up like the faces that jackpot in vegas

That until I lost my marbles on the marble floor

cats can kill like oj for something small

the haters gonna keep acting like

I can make it happen

rapping like I'm going captain money flashing top fashion
feel like I never... kiss my ass
Get your tan from my future, you should open up my past
Outside... while we smoking tripping off the glass
even give myself a bath

You backtracking,... how is...
Move crowds for certain...
Champagne and ice chains keep the circle pool
