

## Again

### Cross Canadian Ragweed

On the floor now, on the floor now  
It's started again, it's started again  
Close the door now, close the door no  
Won't you let me in, won't you let me in

It's been six long days, and I'm on my way  
Will I ever see the end, gotta heavy load  
Down a dead end road, and I can't sleep again  
I can't sleep again

Hold the phone now, hold the phone now  
You're calling again  
Won't ya call again  
Say my name girl, say my name girl  
You know it's a sin, even though it's a sin

Gotta roll on, gotta roll on  
Gonna leave you alone girl not for long
