

Burn Like The Sun

Cross Canadian Ragweed

This is personal
Worse than I thought it was
Worse than it could be
Worse than a hole in me

You came with fire
And left it in me
Deep down it sits
And the fuse is lit 'til now

You can't help it
You're alive just like anyone
But you forget
I burn just like the sun

This is beautiful
More like a train wreck
And all the passin' cars
They wanna know who you are

I, suffer the season
And you are well aware
Of the reasons why

Repeat Chorus 3x
