

Cold Hearted Woman

Cross Canadian Ragweed

She's got a smile a million miles long
Got a trail of cryin' and leavin' songs
You don't know and you don't care
You're completely unaware
Sometimes I wanna rip out your heart
And see if something's there

Cold hearted woman
You're bringing me down in flames
Runnin' around all over town
Runnin' down my name
Gonna get me a loaded pistol
Wait, was that out loud?
Cold hearted woman
I'm gonna put you in the ground

When the money comes rollin'
I can do no wrong
When the river stops flowin'
She's burnin' up the telephone
And by the time that I find you
Yeah my money' all down the drain
Burnt it up on cheap motels
And 8 balls of cocaine

Cold hearted woman
What goes around comes around
