

Drag

Cross Canadian Ragweed

Blame me if you wanna blame me
Hang me if you're gonna hang me
Damn me if you're gonna damn me
Don't drag me along

What's up? I know what you're thinking
Times up, I feel this thing is sinking now
You crack up every time you're drinking
Don't drag me along
Don't drag me along

Don't drag me along
(Stop dragging me)
Stop putting me on
Don't drag me along
(Stop dragging me)
It's the same old song
Don't drag me along

And this thing, it's got its share of glitches
I feel it's headed for the ditches down
Back-talking dirty sons of bitches
Don't drag me along

And deadly, but still you try to save me
You're crazy to ever try to play me now
Lady, lady in the waiting
Don't drag me along
Don't drag me along

Repeat Chorus 2x
