

Flowers

Cross Canadian Ragweed

You bring me sunshine
I bring you rain
You bring me smiles
I drive you outta your brain
You bring me up
I bring you down
I bring you flowers
It brings you around

I know that I
Am hard to live with
Try to live with
Out me girl
i Drive you crazy, you drive me mad
We're the best thing we've ever had

You roll your head back
On your shoulders
You roll your eyes
You know it gets to me
Then we roll back
All the covers
We're gonna roll through
Eternity

Yeah we're the best thing
Just ask your dad
