You bring me sunshine I bring you rain You bring me smiles I drive you outta your brain You bring me up I bring you down I bring you flowers It brings you around

I know that I Am hard to live with Try to live with Out me girl i Drive you crazy,you drive me mad We're the best thing we've ever had

You roll your head back On your shoulders You roll your eyes You know it gets to me Then we roll back All the covers We're gonna roll through Eternity

Yeah we're the best thing Just ask your dad
