## Invincible

Crossfade

I memorized all the words for you But if you only knew How much that's just not like me I wait up late every night Just to hear your voice But you don't know that's nothing like me

You know I wonder how you already figured out All these things that I try to hide All this time i've been hoping you don't find out All these things that I hide on the inside

I can't be held responsible This is all so new to me Just when I think I'm invincible You come and happen to me

I want to make sure everything is perfect for you If you only knew That's not like me to follow through Maybe even give up all these dead end dreams Just to be with you But you don't know that's nothing like me

Hey yeah I wonder how you already figured out All these things that I try to hide All this time i've been hoping you don't find out All these things that I hide on the inside

I can't be held responsible This is all so new to me Just when I think I'm invincible You come and happen to me

Now I'm waking up I've finally had enough of this wreck of a lifetime I never thought I'd survive it Now I'm taking back All I gave up for that Leave my pain behind Wash these stains from my life

Just when I thought all was lost You came and made it all okay

I can't be held responsible This is all so new to me Just when I think I'm invincible You come and happen to me

I can't be held responsible This is all so new to me Just when I think I'm invincible You come and happen to me

I memorized all the words for you If you only knew

How much that's just not like me
