Make Me a Believer

Will it make me feel even Will it make me feel right Will it solve all my problems Solve my life Make me a believer Make me a believer Lost Something is lost Alone Dying alone Make me a believer Because it makes me feel even Because it makes me feel right Because it solves all my problems Because it solves my life Lost Someone is lost Alone Dying alone Make me a believer Its in my blood Its underneath my skin Beneath my skin Its underneath my skin Your in my blood Your underneath my skin Beneath my skin Its underneath my skin What will you make me Does it make a difference who I am When I'm alone Does it make a difference who I am When I'm alone Make me a believer Make me believe Make me a believer Make me believe
