

# Dance With The Enemy

Crossfaith

Listen up I feel alright, but I'm sick, sick, sick of the lies  
Turn it up so you can hear the truth  
Now we're taking over the stereo

We're stuck in the darkest place  
Our world is buried in sand  
I need to breath in and breath out the air  
We're all ready to wake up (wake up)

Oh step outside feeling alive  
Tonight I will dance with the enemy  
Yeah we're ready to go, breaking the law  
Tonight I will dance with the enemy  
With the enemy

How the fuck are you feeling tonight?  
Just give me something to get me higher  
If you feel it, come and join our side  
So let's end their selfishness

We're stuck in tha darkest place  
The world is buried in sand  
I need to breath in and breath out the air  
We're all ready to wake up (wake up)

Oh step outside feeling alive  
Tonight I will dance with the enemy  
Yeah we're ready to go, breaking the law  
Tonight I will dance with the enemy

Go!  
Want to live?  
Want to dance?  
Want to break everything that you hate?  
Want to love?  
Want to hate?  
Want to get everything that you want?

We are the chosen to be opressed  
We are so willing to be possessed  
We are the chosen to be opressed  
And we will feel alive

Oh step outside feeling alive  
Tonight I will dance with the enemy  
Yeah we're ready to go, breaking the law  
Tonight I will dance with the enemy  
Tonight I will dance with the enemy  
Tonight I will dance with the enemy  
With the enemy
