

# Eclipse

Crossfaith

As the shadows fall down we go underground to the place we rock  
and roll

I'm gonna need your help this ain't gonna rock be itself.  
Inside the crowd, let it all out, until the sunrise comes  
We can rock the party out  
Till the morning!

Howl and shout you need to burn this mother down  
Scream and shout you need to bounce or get right out!

Oh, man I want to break all the rules tonight  
You have no excuse blow up the dance floor  
We're gonna say what fuck the system  
Drop! Drop! Drop! Drop! Drop the beat down on jungle beat

Take a look around people step in here to forget their fear  
Can't you here their howling and screaming? To let it all out f  
or this night you're gone

Oh, won't you tell me what I want to hear that we will last for  
ever  
In the night I here the echo just wanna keep this going never e  
nding  
You make me high, high, high like the stars  
So stay all night, night, night till the sunrise  
Touch the sky sky sky with diamonds  
This night will never end
