

Sever the Wicked Hand

Crowbar

You feel the mountain shaking
Your broken body aching
My suffering I give you
Is gonna help you pull thru

You'll never feel this way again
Just let it go and it will end

The thunder shakes your backbone
While healing you're not alone
These things will make you stronger
Depressing you no longer

You'll never feel this way again
Just let it go and it will end

Never let it drag you down
Stay strong till the bitter end
Take control and never drown
Now you can touch the light
