Sever the Wicked Hand

Crowbar

You feel the mountain shaking Your broken body aching My suffering I give you Is gonna help you pull thru

You'll never feel this way again Just let it go and it will end

The thunder shakes your backbone While healing you're not alone These things will make you stronger Depressing you no longer

You'll never feel this way again Just let it go and it will end

Never let it drag you down Stay strong till the bitter end Take control and never drown Now you can touch the light
