

## Symbiosis

Crowbar

A distant lonely night  
I lie awake  
I don't know where I am  
Just know I'm safe  
All that I love at home  
So far away  
Tomorrow brings new light  
Another day

You hold me up in times of weakness  
And in return I set you free  
My heart I give to all of you  
Now part of you belongs to me

And after all these years  
This dream is real  
I never lost my will  
It's strength I feel  
Don't ever lose desire  
Or you will fade  
I stand behind myself  
And all I've made

You hold me up in times of weakness  
And in return I set you free  
My heart I give to all of you  
Now part of you belongs to me

Fly on!  
Fly on!  
Fly on!

Now part of you belongs to me!

And through your eyes I look at you  
I'm feeling what's inside of you  
And every night you give me strength  
For that I give my heart to you
