

The Violent Reaction

Crowbar

The eyes of God are looking down
His tears, they flood the earth
Reality's an awful truth
As mankind self-destructs

The violent reaction
The ever-growin fear

The gravity it pulls us down
An unrelenting force

A lesson learned in ignorance
A wasteland of broken bones

The violent reaction
A mess of human debris
The loss of direction
The ever growing fear

The eyes of God are looking down
His tears, they flood the earth

The eyes of God.
