

## Even a Child

Crowded House

I want to turn on the lights  
I want to keep your hopes alive  
So where do I begin  
To help you believe again  
Makers of secret planes  
Keepers of our last remains  
Dream of a holy state  
In a nightmare time

You know I meant it well  
But who was it meant to help?

Even a child knows you don't waste it  
A promise is only given once  
And there is no doubt that changes have begun  
Even a child knows that you can't fake it  
As long as the world is waking up  
You are free now to recover your heart

The stories left to write  
The ebb and flow of my life  
To justify the end  
I'll do everything I can  
And it's a dangerous game  
I heard you tell someone that you don't care  
But I don't believe the message

And when you sing about love  
What are you thinking of?

Even a child knows you don't waste it  
As long as the world is waking up  
And there is no doubt that changes have begun  
Even a child knows you don't fake it  
A promise is only given once  
You are free now to go wherever you want

There's nothing like waking up in some foreign town  
Music is a call to prayer  
Wailing out of the speakers in the market place  
The first time  
Even a child

Even a child knows you don't waste it  
A present can always be delivered twice  
You are free now to receive the gift of insight

From now on (lets be open)  
All in time (lets breathe in)  
Am I brave (you're so brave)  
Am I afraid (no not afraid)  
Even a child
