

## How Will You Go

Crowded House

Escape is on your mind again  
Escape to a far away land  
At times it seems there is no end  
To long, hard nights of drinking

How will you go?  
How will you go?  
Drive through the wind and the rain  
Cover it up  
Cover it up  
I'll find you a shelter to sleep in

I fell over on the couch again  
But you know not all sleep is wasted  
The dreams are alcohol inspired  
I can't find a better way to face it

How will you go?  
How will you go?  
Drive through the wind and the rain  
Cover it up  
Cover it up  
I'll find you a shelter to sleep in

And you know I'll be fine  
Just don't ask me how it's going  
Gimme time, gimme time  
'Cause I want you to see  
'Round the world, 'round the world  
Is a tangled up necklace of pearls

How will you go?  
How will you go?  
Drive through the wind and the rain  
Cover it up  
Cover it up  
I'll find you a shelter to sleep in

How will you go?  
How will you go?  
Drive through the wind and the rain  
Cover it up  
Cover it up  
I'll find you a shelter to sleep in
